Parasound's digital quartz radio tuner, the TDQ-150, may just be the highest quality mini-tuner in the world. Outstanding sound and convenient features such as remote, DC triggering, IR control input, and 30 station presets have made it a favorite for desktop, dorm and distributed audio systems. It can be controlled by our Z-pre remote as well, relieving gizmo clutter. Want minimum footprint with maximum radio? Here it is!

What is Parasound's Z-Series? It's the highest-fidelity set of matched miniatures available today. Only 2" tall and 9-1/2" wide, Z's can stand alone on the smallest surface, or rack mount side by side. Wherever you want a minimum-size system with maximum-quality sound – on desktop, counter, in-wall or multi-zone – the Z-Series is your compact sonic solution.
